Part II Author Index

MEDICAL LIBRARY
DIRECTORATE GENERAL OF HEALTH SEVICES
NEW DELHI, 1960

PREFACE

Arrangement of Volume II of the Index of Indian Medical Periodicals July—December, 1959 has been changed slightly; instead of putting Author and Subject entries in one sequence as in Volume I, we have separated it into two parts; Part I Subject Index and Part II Author Index.

Cross references like 'See' and 'See also' have been used as in Vol. I, in order to avoid unnecessary duplication and to provide a wider range to subjects

Any more suggestions will be welcome.
